

## **ENGEL North America Adds Anton & Associates**

**YORK, Pa. – May 20, 2008 – ENGEL North America has enhanced its sales effort in the south-central U.S. with the addition of Anton & Associates, Inc. The announcement was made by Jim Moran, vice president of sales for ENGEL North America.**

ENGEL North America, a world leader in the design and manufacture of injection molding machines and part-handling automation systems, announces the addition of Anton & Associates, Inc., Denton, Texas, to work with the plastics industry in Texas, Oklahoma, Arkansas, Louisiana and Juarez, Mexico. The company will work with ENGEL North America Regional Sales Manager Steve Craig.

Representing ENGEL from Anton & Associates is Phil Anton, company founder and president & CEO, as well as Vice President Tony Anton and Sales Engineers Tom Corr and Eduardo Valadez, accounting for over 90 years' experience in serving the plastics industry. The company also has a complete support staff. "Every representative from Anton & Associates brings extensive product, market and engineering experience, and will certainly enhance our representation in this region," said Craig.

Anton & Associates was established in 1982 by Phil Anton, and operates offices in Denton and El Paso, Texas. The group will work with ENGEL's direct sales, service and spare parts support personnel to meet the immediate needs of customers throughout the region.

### **ENGEL North America**

From facilities in the United States, Canada and Mexico, ENGEL North America provides its customers a single source for design and manufacture of injection molding machines for thermoplastics and elastomers, a full range of plastics processing technology modules and a full scope of automation solutions. With eight production plants in Europe, North America and Asia (China, Korea), subsidiaries and representatives in over 85 countries, ENGEL North America provides its customers the global support they need to compete and succeed with new technologies and leading-edge production systems.
