

ENGEL e-max electrifies Europe

ENGEL e-max on Tour

Schwertberg/Austria – March 2008. Maximum precision and economy in a compact package. This is the new, fully-electric ENGEL e-max injection moulding machine. And this machine is touring through Europe from 15th April to 3rd July 2008. At 11 locations, visitors can look forward to a multi-faceted programme under the banner of “europe-max 2008”. Besides demonstrations of ENGEL e-max machines and talks by experts for experts, there will be opportunities for networking with other experts.

The new e-max is a genuine ENGEL machine. Innovative like any other ENGEL machine. But still slightly different: Fully-electric and compact, extremely economical, but still equipped with the critical options that help customers optimise injection moulding. Besides the comparatively small footprint, the ENGEL e-max offers maximum precision and maximum process safety due to its highly integrated drive and control technology by B&R. A high-performance injection unit guarantees excellent performance and maximum reproducibility. This means guaranteed quality – made in Austria, less rejects, and lower quality costs shot for shot. On top of this, the ENGEL e-max comes with a central power supply for the servodrives including recovery of braking energy. The benefits: Maximum energy efficiency. All told, a machine with a perfect cost-effectiveness ratio.

ENGEL electrifies Europe

On 15th April, ENGEL will be launching the e-max tour of Europe. Starting in Belgium, the 3-month tour will take the e-max to the following countries. Germany, Sweden, France, Italy, Spain, Great Britain, Denmark, the Netherlands and Romania. The exhibits include an ENGEL e-max 80/50 with a clamping force of 500kN and an ENGEL e-max 200/100 with a

clamping force of 1000kN. On top of this, visitors will have an opportunity to talk shop with ENGEL staff. Talks by experts for experts on the fully-electric machine programme round off the event. More information on the tour dates is available online at www.engelglobal.com/europemax
